*"I was nervous about working with someone to revamp my resume at first, but after even a few short emails with Susan, I was at ease. I hadn't updated my resume in several years and was in need of some assistance organizing the many things I'd had a chance to be a part of in my career ... so that I could present my best self to potential employers. She asked all the right questions and was able to pull experiences out of my memory bank that I'd long forgotten about. In short, she was able to take my experiences and organize them beautifully into a masterpiece of a resume! "*
